

Member Road Map

- **Welcome Session**

This session shows teachers how to connect with iEARN. They will learn about iEARN's global community, platform, projects, and student outcomes.

- **iEARN 101 (Getting Started) (90 minutes)**

Explore how to prepare for and begin a global virtual exchange, including how to select a project, hands on activities for guidelines and expectation setting, and introduction activities for students.

- **Hello World Learning Circles January/September**

This 5-week structured experience will pair classrooms with classrooms across the world and introduce teachers and students to the basics of Learning Circles including Teacher Introductions, Class Surveys, and the Exchange of Information.

- **iEARN 102 (Planning Projects) (90 minutes)**

Identify an iEARN project that addresses a global issue, align activities with class goals, and complete a detailed project plan for an exchange. Teachers will learn how to guide students in sharing, presenting, and reflecting on their virtual exchange experience with their community. This training may be taken before or after Hello World.

- **Mentor Groups**

Teachers are assigned to mentor groups for the first three months. Global Education Ambassadors with years of iEARN experience are available to answer questions and help along the way.
